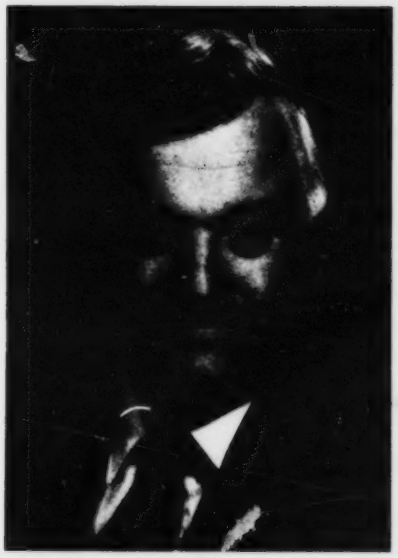
MISSION STATEMENT



Honourable John L. Savage, Minister

The Ministry of Agriculture and Fisheries will encourage sustainable growth and development of industries involved in producing, processing, distributing, and marketing agricultural, fish and food products in British Columbia to meet demand in domestic and export markets.

INTRODUCTION—1988

This report was compiled by the Statistical Services Unit of the Public Affairs Branch of the British Columbia Ministry of Agriculture and Fisheries. Data are prepared primarily by the Agriculture Division of Statistics Canada, Agriculture Canada, Department of Fisheries and Oceans and the Statistical Services Unit. In addition, data has been acquired from other government departments and agencies, marketing boards and producer associations.

Most of the production and inventory statistics in this publication are produced from telephone, mail-in and enumerative surveys of producers, with additional information supplied by government field officers, marketing boards and producer associations. Physical data (e.g. land use, farm types, rural population) has been produced from the quinquennial Census of Agriculture. In addition, statistics on exports and marketings of inspected or controlled commodities have been produced from administrative data.

Data users interested in obtaining more detailed information on fisheries statistics should consult the publication "Fisheries Production Statistics of British Columbia".

The data presented in this publication are a sub-set of data made available by the B.C. Ministry of Agriculture and Fisheries through the B.C. Business Network. On-line data in the "Agricultural Statistics Infobase" on the BCBN includes: Agriculture Profiles, Agricultural Trade Statistics, Financial Statistics, News, Statistics by Commodity and Publications and Other Information Sources. Contact the B.C. Business Network for more information on how to access.

Please note that totals may not add due to rounding.

Requests for additional information should be made to the agency credited with the data or to the Statistical Services Unit (604-387-7169) between 10:30 and 12:00 or 1:00 and 2:30.

Written enquiries may be directed to the Statistical Services Unit, B.C. Ministry of Agriculture and Fisheries, Windsor Court, 808 Douglas Street, Victoria, B.C., V8W 2Z7. (FAX: 604-387-3522, EMail: AGF_AGSTATS)
